Root's Prestauring preserves the life of the Har changes it from gray to lite original color in three weeks; preventing the hair from failing; is the best article for dressing the hair from failing; is the best article for dressing the hair ever found in market; will surely remove dandrud and cure all humanity, send from to all who need it, the recipe humanity, send free to all who need it, the recipe and directions for making the simple remedy which he was cured. Sufferes withing to profit by the advertiser's experience, can do so by addressing, in perfect confidence. JOHN B. OGDEN, Efficiency, Economy, imparts sweet oder to the

IMPROVEMENTS IN DENTISTRY --Dr. J. M. Comegys, the wide-awake and enterprising Dentist of Montpelier, has recently introduced several improvements in Pentistry, an important one being in rubber work. Hitherto rubber plates for artificial teeth have been of an objectionable color, the deep red making them too conspicuous when in the least exposed to sight. This objection Dr. Comegys has overcome, having in use a discovery whereby the rubber is given a firsh color, the difference between that and the natural gums being difficult to discover, while at the same time strength is added by the process of coloring. Another improvement is the discarding of air chamcause malformation of the roof of the mouth, and the attainment of the object of air chambers through a far preferable method. Person destring breathing becomes freer. Spasmodio as thma is of-ten cared by a single dose. New Advertisements.
